THE MODEL... 199 & 299 SEED CLEANER

Putting quality into the entire process. Oilseed processors demand quality and expect dependable equipment. Cantrell Worldwide demands dependability in each piece of equipment manufactured for the oilseed processing industry. The Cantrell Model 199 and 299 Cottonseed Cleaner is a complete unit designed to effectively remove foreign material from white cottonseed. Cottonseed cleaned through these machines produce cleaner lint, higher cellulose content and allows for better delinting and dehulling (decorticating).

***The Cantrell Model 199 & 299
perform the following separations:***

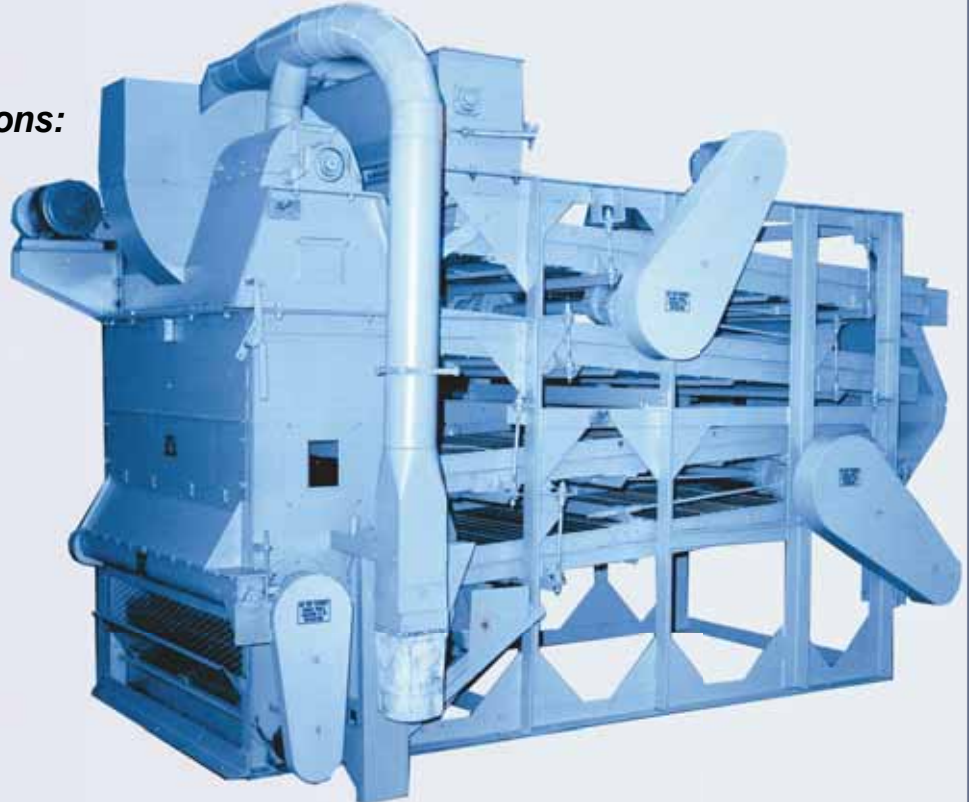

Blackseed and loose meats

Bolls and oversize trash

Sand and dirt

Stones, metal, glass, etc.

Dust, shale, chaff, etc.

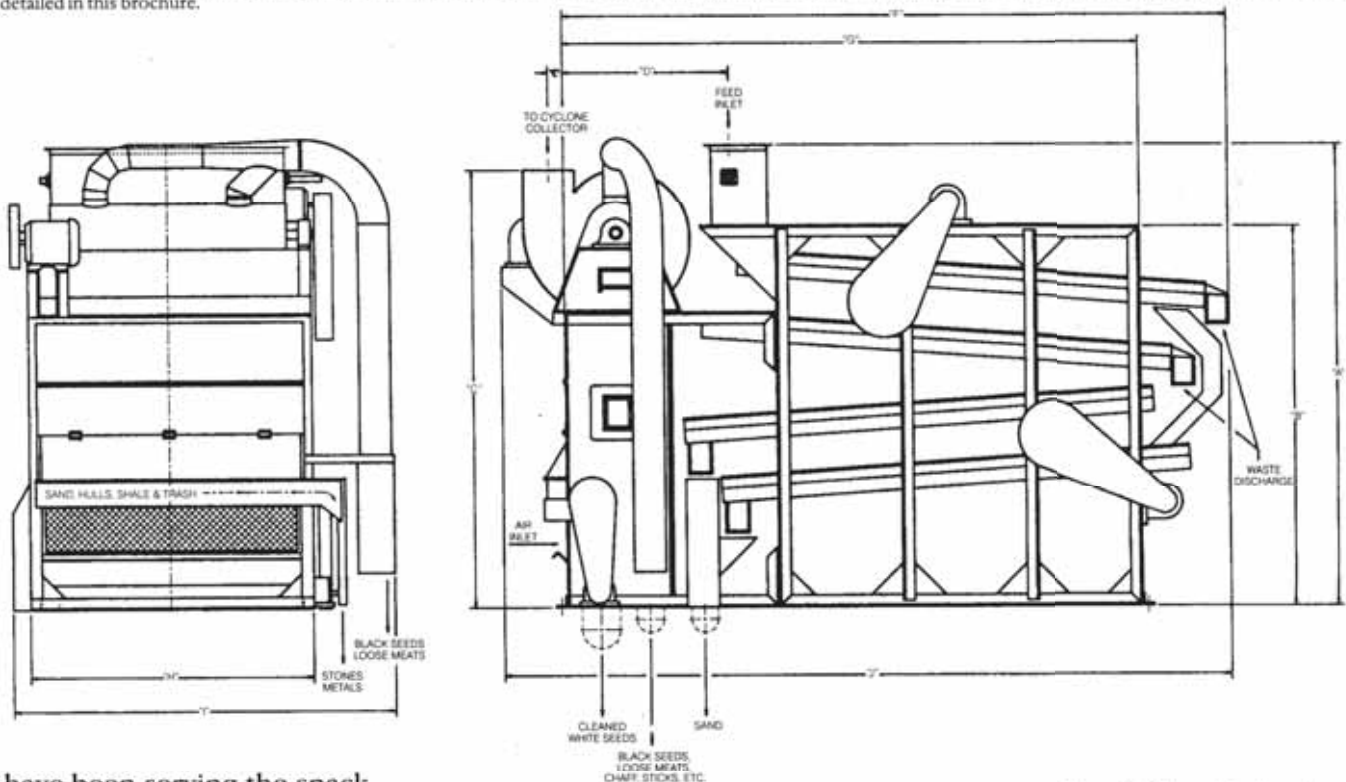

The Model 199 and 299 Cottonseed Cleaners are designed with 60" wide trays. The Model 199 has a daily nominal capacity of 30-50 tons per day. The Model 299 has a nominal capacity of 75-100 tons per day. Capacities on either Model will depend on lint content and the type of cottonseed, for instance, stripped or picked cotton will each affect the machines differently. The Model 199 2-tray cleaner can be converted to a 4-tray cleaner for added capacity and cleaning efficiency. Cantrell Worldwide can provide detailed conversion information upon your request. Inquire today and find out how Cantrell Worldwide can assist in increasing your company's profits through dependable, efficient, rugged equipment with service to match.

SPECIFICATIONS: 199 & 299 SEED CLEANER

Cantrell International is constantly engaged in the design of engineering improvements and refinements to its entire line of equipment. This never-ending effort has helped to maintain our position as a leader in the production of process machinery. As a result of such design changes, it is possible your particular machine may differ in some respects from the machine detailed in this brochure.

We have been serving the snack food, edible nut and vegetable oil industries for over three decades.

Sales, engineering, purchasing, manufacturing, shipping and receiving, customer service - all departments work closely together so you get informed recommendations, attentive service and prompt follow-up. We put quality into the entire process...

Edible Nut Industry

Roasters
Coolers
Whole Nut Blanchers
Split Nut Blanchers
Granulators
Bucket Elevators
Sesame Roasters
Peanut Butter Mills
Gravity Separators
Picking Tables
Cyclones
Fans

Vegetable Oil Industry
